more or less in accordance with the Mysore grant in aid Rules of 1873 and Submits the papers regarding the building grants sanctioned to the Maramallappa's School on previous occasions

From these papers it will be seen that a sum of Rs 10,000 ~~were~~ was given as building grant to this School in 1867 & 1868

The ~~building~~ provision for building and other lumpsum grants sanctioned during the last 7 years is given below -

~~19~~ years -	Provision
1899-1900	Rs-10,410
1900-1901	" 15,743
1901-1902	" 8745
1902-1903	" 5,000
1903-1904	" 5,000
1904-1905	" 4,000
1905-1906	" 5,000

For the current year a provision of Rs5000 has been made. The Dpt has already stated in Sl No 1 of the current ~~year~~ papers that this will not be sufficient even for meeting the ordinary applications for such grants and has Recommended that a Special grant of Rs 3,500 may be made for the Maramallappa's

The expenditure is not apparently urgent and no addition can now be made to the Budget. A liberal building grant of Rs 30000 was sanctioned this year and the DI of Education may try to meet the present charge from the grant already sanctioned, if the necessity to sanction the grant-in-aid to established to the Satkhania H School, if priority did be given to this grant-in-aid & if it is necessary to make the grant this year. This does not seem to be a case for sanctioning an additional grant.

2 I recommend that Government may be pleased to sanction a grant of Rs 1150 for furniture and apparatus and Rs 2350 for the extension of the building which are about a third of the respective items of expenditure. A plan and an estimate of the proposed additions to the building have been called for and will be submitted to Government as soon as they are received. Meanwhile it is requested that a sum of Rs 3500 may be sanctioned and provided in the Budget for 1906-7 over and above the Normal provision of Rs 5000 annually provided in the Budget for building and other lump sum grants. As the grants for which applications have been received

already amount to much more than the Normal provision, I request that a sum of Rs 3500 may be specially sanctioned for the Mari Mallappa's School alone.

A separate application will be made for the utilization of the grant after the necessary information is obtained from the Secretary -

With reference to your docket No 12412/Ed(325-05)-2 dated the 2nd June last inquiring in connection with this office No 8922-3/5-61 dated the 8th May 1906 recommending a grant of Rs 3,500 to the Inam Mallappa's High School towards the cost of extending the School building and purchasing certain articles of furniture &c, under what authority such grants are made and calling for all the available references on the subject, I have the honour to inform you that grants for purposes of the kind referred to are recommended by the Inspector General

and

and sanctioned by Government on the merits of individual applications, more or less in accordance with the Mysore Grant-in-aid rules of 1893 of which a copy is enclosed for reference.

2 A grant of Rs 5,000 towards the cost of the present building was sanctioned by Government in their Order No. 3612-14 dated 22nd February 1887 and an additional grant of a like amount was sanctioned in Government Order No. 25-6 dated 4th May 1888 These two orders are enclosed for reference and favour of return when no longer required.

X With applications for G.I.

I have the honour to be,
Sir,
Your most obedient servant,

Ag Inspector General.

MYSORE GRANT-IN-AID RULES

The Local Government, at its discretion, and upon such conditions as may seem fit in each case, (reference being had to the requirements of each District as compared with others and the funds at the disposal of Government), will grant aid in money, books, or otherwise, to any school under adequate local management in which a good secular education is given through the medium either of English or the vernacular tongue

2 In respect of any such school for which application for aid is made full information must be supplied on the following points —

1st The pecuniary resources, permanent and temporary, on which the school will depend for support
2nd The proposed monthly expenditure in detail
3rd The average number of pupils to be instructed
4th The persons responsible for the management
5th The nature and course of instruction
6th The number and salaries of masters or mistresses
7th The nature and amount of aid sought

3 Any school to which aid is given, together with all its accounts, books and other records, shall be at all times open to inspection and examination by any officer appointed by the Local Government for the purpose Such inspection and examination shall have no reference to religious instruction, but only to secular education

4 The Government will not interfere with the actual management of a school thus aided, but will seek, upon the frequent reports of its Inspectors, to judge from results whether a good secular education is practically imparted or not, and it will withdraw its aid from any school which may be, for any considerable period unfavourably reported upon in this respect

5 In giving grants in aid, the following principles will be observed —

(*a*) The Government will always endeavour so to give its aid that the effect shall not be the substitution of public for private expenditure, but the increase and improvement of education

(*b*) Grants will be given to those schools only (with the exception of normal schools and girls' schools) at which fees of reasonable amount are required from the scholars

(*c*) In no case will the Government grant exceed in amount the sum to be expended on a school from private sources

(*d*) For schools educating up to the University Entrance Standard, the Government grant will not, as a rule, exceed one half of the income guaranteed from local sources

(*e*) For other schools in which the expenditure is more than Rs 30 per mensem, the Government grant will not, as a rule, exceed two thirds of the income guaranteed from local sources

(*f*) The proportional amounts above laid down for Government grants are *Maximum* amounts and it must not be assumed that the *Maximum* will, in all cases, and as a matter of course be sanctioned

(*g*) The conditions of every grant will be subject to revision periodically

6 It is to be distinctly understood that grants in aid will be awarded only on the principle of perfect religious neutrality, and that no preference will be given to any school, on the ground that any particular religious doctrines are taught or not taught therein

7 The erection, enlargement and repairs of school houses are included among the objects for which aid may be given subject to the conditions prescribed in para 5 *c* Whenever a building grant is asked for, a plan and estimate of the building, and the number for whose accommodation it is required, should accompany the application

8 In the event of any building, towards the erection, purchase, enlargement or repair of which a grant may have been made by Government, being devoted to any other than educational purposes, the Government shall have the option of purchasing the building at a valuation to be determined by arbitrators, credit being given for the amount of the grant which may have been made by Government

The Maharajah of Mysore

Sir,

We the undersigned Trustees of Muthialappah's Charities beg to apply for a School building grant-in-Aid

The present School building of Muthialappah's School not being in a suitable locality, and not being sufficient to accommodate the present number of boys, which sometimes exceeds 450, we thought it advisable to erect a School building in the site in Thottiah Royah Mohalla which you were pleased to grant us

We herewith enclose a plan and an estimate prepared by Mr Saunders Lee and which you were pleased to approve

The building is given to one Sawcar-pah on contract at 12 per cent less than the rates mentioned in the estimate and the total amount according to the estimate being Rupees 24836 we require early Rupees 22000 to meet which we have Rupees 16000 at our disposal out of the Charity Funds

We therefore pray you will be pleased to sanction a grant of 6000, (which is less than 1/3 of the whole amount) the proportion usually granted by the

Madras Government, for such buildings
for the new School building

The said contractor Davappah
is the person who had taken the contract
of the Rungachariar Memorial Hall
and in the contract bond taken from
him we have inserted a clause that
his work should be subject to the
approval of Mr Saunders Esq

We therefore request that
you will be good enough to permit
Mr Saunders Esq to inspect and
check the work

We have the honor to be

The Educational Secretary
Bangalore

Sir,

I have the honour to apply for a further grant from Government towards the building which is being raised here for the Town Hall Anglo Vernacular School certain necessary additions, such as a double verandah, a compound wall &c have considerably increased the cost of the building which though originally rated will now be about Rs. 30000 The Trustees are very thankful to Govt for the free grant of the site as well as for the grant of Rs. 5000 already sanctioned They however feel impressed to complete the building with the funds & resources at their disposal They therefore take the liberty of making the application.

The School is gaining gradually in popularity, as the usefulness and the accommodation provided by the building now in course of construction is unexceptionable The building is a strong substantial, and well designed one, and all the other subscriptions work of the Trustees to secure a handsome and healthy home for the School — a work with which
